LA MINI

Single Zone POE

One of the biggest benefits of the LA1 Mini POE music streamer is its ability to turn your active speakers into media streamers fully integrated with your home automation system. This means that you can play your favourite music directly from your phone or computer to your speakers, without the need for any additional equipment. With its easy-to-use interface and intuitive controls, you'll be up and running in no time.

In addition to its streaming capabilities, the LA1 Mini POE music streamer also offers a range of other benefits. Its compact design means that it can be easily installed in any space, and its durable construction ensures that it will stand up to years of use. Plus, with its Power over Ethernet (POE) technology, you can power the LA1 Mini POE directly from your network switch, which means that you won't need to worry about finding an additional power outlet. So whether you're a music lover or just looking to upgrade your home entertainment setup, the LA1 Mini POE music streamer is the perfect choice.

Whether requiring a single zone source for a dedicated room/bar/yacht or looking to create a multi-room audio system that exceeds the user expectations, LODE Audio's LA1 Mini's simple control and bullet-proof build/reliability should be the installers audio source of choice.
